afterpay

Transitioning from university to industry

My IT Project Team

Insights into working

1. Work is analogous to projects at University

2. Time management is incredibly important

3. Soft skills > Technical skills

afterpay

Networking

1. It puts you on top of the pile for recruitment

2. It allows you to learn about the field in a way researching online just can't achieve

3. It gives you the chance to see what the people you'll work with are like
